

Aliens live among us. Their purpose: to protect and nurture their greatest mistake—mankind. Caeden Frey doesn't believe humans will evolve to see the magic, much less control it. Even so, he has two months to marry a human or face the wrath of the High Council. Bitter about a responsibility he thinks prevents him marrying for love, he figures any human girl will do. He's ready to propose when his soul mate stumbles into—and right out of—his arms. Human, Rynne Killian might be Caeden's one shot at happiness while still fulfilling his duty. Unfortunately, she guards a dark secret. She's determined to push Caeden away to protect him from her past. Caeden must convince her she's worthy of his love before a rival family puts an end to his wedding plans. If she can see her own worth, she just might save herself and his people.
