

Wolfs Magic (The Westervelt Wolves Book 4)

Wolfs Magic is the story of Azriel Kane, fifth brother in the royal Westervelt wolf pack. Always different from his siblings, Azriel prefers to spend his time underground in a lab than out fighting battles to save the pack from destruction. In his own way, he feels he is contributing to the packs success. However, when fate plants his destined mate in a cage where he cant ignore her, Az will be forced to face up the demons that have plagued him since childhood and be the shifter she needs him to be. Leah St. James has no idea who she is or how she came to be trapped in a cage in Azriels lab. The only thing she is certain about is that she is not a wolf and that she wants out of her false wolf body as soon as possible. Counting on Az to save her from the same doomed fate as the other wolves Az is given to study, from the distance of her cage she can see Az for who he really is and not the false front he presents to the world. But Kendrick Kane is not done with Westervelt and when he steps up his game to eliminate the Kanes from Westervelt, Az and Leah will need each other to discover the truth behind his evil plans, that is if Azriel can finally reveal the secret he has been keeping since he was a child. With Leahs help, can Azriel finally take his place in the pack hierarchy or will they fail and lose Westervelt forever?
