

The Coffee Girl

Former barista Brenna Smith dreams of opening a bistro where she can bake her specialty pastries and serve delicious coffee. Envisioning a rich, aromatic life full of savory moments, she instead lives at home with her parents, making a long commute each day to work for a boss who doesn't know beans about his job. If it wasn't for the hunky guy she sees each morning at the coffee shop, her bland existence would be unbearable. Charming, smart, and good-looking, Brock McCrae is a man comfortable in his own skin. Owner of a successful construction company, he decides to move to the small town where his business is located and immerse himself in the community. Brock doesn't count on his new client being the cute and quirky woman he knows only as the Coffee Girl from his daily stop for coffee.
